<b>(54) Title:</b> SIALYL LEWIS X AND SIALYL LEWIS A GLYCOMIMETICS		
<b>(57) Abstract</b>  The present invention provides a series of compounds in the form of chemically and physiologically stable glycomimics or glycoepitopes that serve to functionally mimic the active features of biologically important oligosaccharides, such as but not limited to sialyl Lewis <sup>x</sup> (sLe <sup>x</sup> ) and sialyl Lewis <sup>a</sup> (sLe <sup>a</sup> ). These structural Glycomimetics have been shown to be useful in the treatment of acute and chronic diseases as well as for the treatment of asthma. These compounds also are useful in the treatment of other selectin-mediated disorders, such as inflammation, cancer, diabetes, obesity, lung vasculitis, cardiac injury, reperfusion injuries, thrombosis, tissue rejection, arthritis, inflammatory bowel disease and pulmonary inflammation.

# INTERNATIONAL SEARCH REPORT

International Application No

PCT/US 98/25783

## A. CLASSIFICATION OF SUBJECT MATTER

IPC 6 C07D309/10 C07D211/60 C07H15/26 C07C229/46 C07D309/06  
A61K31/70 A61K31/35

According to International Patent Classification (IPC) or to both national classification and IPC

## B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC 6 C07D C07H C07C A61K

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

## C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	EP 0 761 661 A (HOECHST AG) 12 March 1997 see page 10 ---	1-25
X	DE 195 37 334 A (HOECHST AG) 10 April 1997 see page 4 ---	1-25
A	WO 97 30984 A (GLYCOMED INC) 28 August 1997 cited in the application -----	

☐ Further documents are listed in the continuation of box C.

☒ Patent family members are listed in annex.

### \* Special categories of cited documents :

- \*A\* document defining the general state of the art which is not considered to be of particular relevance
- \*E\* earlier document but published on or after the international filing date
- \*L\* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- \*O\* document referring to an oral disclosure, use, exhibition or other means
- \*P\* document published prior to the international filing date but later than the priority date claimed

- \*T\* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- \*X\* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- \*Y\* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
- \* & \* document member of the same patent family

Date of the actual completion of the international search

26 March 1999

Date of mailing of the international search report

09. 07. 99

Name and mailing address of the ISA

European Patent Office, P.B. 5818 Patentlaan 2

Bardili, W

# INTERNATIONAL SEARCH REPORT

International application No.  
PCT/US 98/25783

## Box I Observations where certain claims were found unsearchable (Continuation of item 1 of first sheet)

This International Search Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claims Nos.:  
because they relate to subject matter not required to be searched by this Authority, namely:
2. ☐ Claims Nos.:  
because they relate to parts of the International Application that do not comply with the prescribed requirements to such an extent that no meaningful International Search can be carried out, specifically:
3. ☐ Claims Nos.:  
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

## Box II Observations where unity of invention is lacking (Continuation of item 2 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

see additional sheet

1. ☐ As all required additional search fees were timely paid by the applicant, this International Search Report covers all searchable claims.
2. ☐ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. ☐ As only some of the required additional search fees were timely paid by the applicant, this International Search Report covers only those claims for which fees were paid, specifically claims Nos.:
4. ☒ No required additional search fees were timely paid by the applicant. Consequently, this International Search Report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

1 - 25 (in part)

### Remark on Protest

- ☐ The additional search fees were accompanied by the applicant's protest.
- ☐ No protest accompanied the payment of additional search fees.

**FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210**

1. Claims: 1-25 (part)

Five- and six-membered heterocyclic compounds as depicted in the first and third general formula of the claim and their use as a medicament.

2. Claims: 1-25 (part)

Cyclohexane compounds as depicted in the second general formula of the claim and their use as a medicament.

3. Claims: 1-25 (part)

Aliphatic compounds as depicted in the fourth general formula of the claim and their use as a medicament.
